

Premium
American
made billiard
tables

Inspiration Guide

*We believe that our
business is more than
manufacturing, it's a
people business.*

*We build tables that are preferred by players
of all skill levels, and we are always striving
to improve quality and playability.*

*We understand that our tables create family
experiences with lasting memories. Our
company began with a passion for the game
that has defined us for over 70 years.*

Kelly Stots
Owner / Player

The digital images in this catalog are as accurate as possible. However, color may vary slightly.
Contact your local dealer to choose the exact stain for your new table.

History

Connelly Billiards has been building quality pool tables for over 30 years, and now as part of the Valley Dynamo family of companies Connelly Billiards can benefit from that vast knowledge in the gaming industry to deliver an expanded lineup of game room products. Each company began with a passion for the game and that passion continues today. It's a passion for preserving our industry, building quality products and playing games – that passion is the reason we brought Valley, Dynamo, Tornado Foosball, Connelly Billiards, and Champion Shuffleboard all under one roof – to bring the best of the best together. Building our tables and games in the USA says a lot about our commitment to quality and service! It also gives us the ability to customize your table and ultimately your entire game room with Valley Dynamo Companies' products.

Being part of the Valley Dynamo family of companies allows Connelly Billiards to leverage the knowledge and manufacturing skills that are used to build everything from Foosball tables to Pinball machines.

Passion

We only build tables we would display in our homes.

Quality

We focus on the details and listen to our customers.

Experience

We've been building tables for over 70 years.

*All Connelly tables are handcrafted in
Richland Hills, Texas.*

Del Mar

One of the Plateau Collection’s most distinct designs, the Del Mar speaks to the straight forward, no frills styling of mid-century modern architecture.
