 **Three Birds**
Casual

Specializing in the design, manufacturing, and distribution of premium grade fine casual living products. Our teak casual furniture is the choice among retailers, designers, and architects who desire to offer their clients select quality with exceptional value.

Teak has been well known for centuries for its quality, durability and beauty. Teak is a very hard, densely grained wood with a high oil content. The unique combination of these characteristics makes teak naturally resistant to moisture, rot, warping, shrinking, splintering, insects, fungus, marine bores, and termites, making it the ideal material for the creation of outdoor furniture.

Three Birds Casual's outdoor living products conform to the highest quality and construction standards. We accept only grade A, plantation grown teak harvested from government managed plantations in the production of our furniture.

We have built a reputation for developing products that give customers the ability to create unique and beautiful outdoor living spaces. If you desire to work with one of the best manufacturers in the casual outdoor living market, then you should consider Three Birds Casual.
