MASTERED KNOW-HOW

Cornilleau is developing in the global market place thanks to high quality, innovative products with a distinctive design. Through the development of a brand new generation of wheels, we have succeeded in improving the mobility and manoeuvrability of our tables, without ever making the slightest compromise in terms of safety, stability and sturdiness. All the Cornilleau tables are developed and manufactured in France, within the very hub of the business, in Bonneuil-les-Eaux in the Oise department (Picardy), the Cornilleau family's native village. The research and development laboratory associated with the marketing unit are here at the heart of the factory: 'Made in France' grey matter intended to devise, design and manufacture all the products, for today and tomorrow.

IN FRANCE

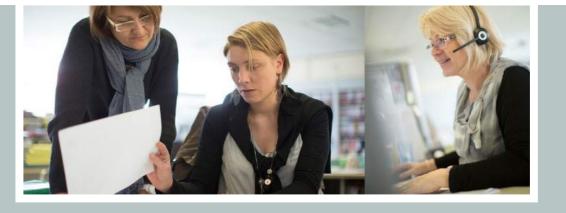

THE CONFIDENT CHOICE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 sales services goes beyond simply exchanging your years for outdoor tables. This 10-year warranty applies to all the product in event of a problem. It also covers managing various components, with the exception being the wear parts your delivery, table assembly and providing telephone (wheels, net and net posts). All our tables adhere to the European or computer support for online customers. safety standard EN 14468. Nevertheless, in order to ensure the highest level of safety, Cornilleau has positioned itself a long way above this standard.

Cornilleau strives to offer the highest quality products. However, some of our products undergo wear and tear over time. That's why we feel it's important to provide you with the best possible after-sales service. Our afterYou have questions? Please contact our after-sales service

By phone at +33 3 44 80 22 22 from Monday to Friday from 8am to 12pm and from 1:30pm to 5:30pm Via chat or drop us an email on our dedicated website:

www.cornilleau-services.com

BUILT-IN DURABILITY

Cornilleau guarantees its OUTDOOR tables for 10 years and its INDOOR tables for 3 years. To make sure you continue enjoying your table long after your guarantee period, we promise that our spare parts will be available to you for 20 years. Cornilleau is synonymous with built-in durability!

ACTIVATE YOUR GUARANTEE

Congratulations, you have just bought a Cornilleau table. Now's the right time to take advantage of Cornilleau's services. To activate your guarantee (3 years on Indoor tables and 10 years on outdoor tables), we invite you to create your account and save your table information on the following page:

www.cornilleau.com/en/activate-guarantee/

Once your guarantee is activated, you will find all the information about your table as well as your order details. You will also ensure the availability of spare parts for your table over a 20-year period.

Throughout the summer 2019, the 9th edition of PING! ENGLAND gathered together nearly 500,000 participants, who for 2 months once again had the opportunity to play on over 600 Cornilleau tables spread right across Britain, including around a hundred in the capital itself. Ping is so British!

The Ping Tour is a truly unique promotional tour, orchestrated by the French Table Tennis Federation and Cornilleau. The 2018 edition, which ran from 8 May to 8 September, encompassed France's largest cities so as to enable the greatest number of people to experience all the Ping universes. Roll on the 2020 edition!

CROSSOVER

OVERSIZE DOUBLE WHEELS

CLEARANCE

The diameter (200mm) of our new Oversize wheels, combined with their ultra-robust design, offers unique clearance (kerbstones, terraces, pavements, etc.).

FLEXIBILITY

The bracket links the two wheels at the very spot where there are the greatest mechanical stresses. As such, our engineers have taken very special care with the design of this part, in order to make the table incredibly easy to manoeuvre in any situation.

MANOEUVRABILITY

The greater the number of wheels the greater the load-bearing capacity. As such, the use of wide, twin wheels (32mm), significantly improves the manoeuvrability of the table, especially on varied (lawn, gravel, wooden terrace, etc.) or uneven terrains.

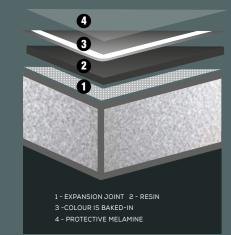

OUTDOOR ULTRADURABLE

HIGH QUALITY MATERIALS ADAPTED TO MEET YOUR NEEDS. ULTRA RESISTANT

Cornilleau has been a pioneer in «outdoor» tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad **BOUNCE HEIGHT DEPENDS** ON THE THICKNESS OF THE CORNILLEAU PLAYING SURFACE TABLES

SOFT[®] MAT

ORDINARY STANDARD OF SAFETY

CENTRALISED SYSTEM INTEGRATED DOUBLE SECURITY

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has 16 locking points. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

DECENTRALISED SYSTEM

The tabletop can be locked and unlocked thanks to a button system at the bottom and top of the side of your table. Composed of 8 locking points, it meets the safety standard.

TO MAKE FAMILY LIFE SIMPLER AND SAFER

The diameter (200mm) of our new Oversize twin wheels, combined with their ultra-robust design, offer unique clearance, manoeuvrability and flexibility.

DOUBLE

WHEELS

RETRAC-

TABLE

NET

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when

stored.

TRACK

This handle enables you to easily lift the table over any obstacles (step, edge of the

terrace, doorway).

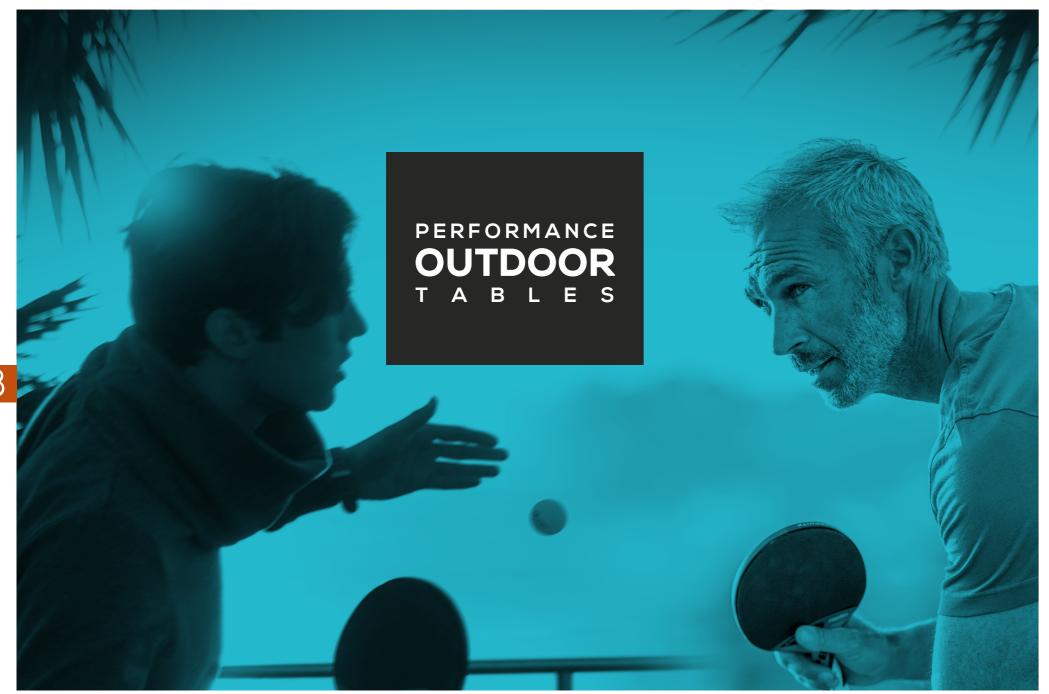

Wide leg pads enable you to adjust the height of the feet and ensure tabletops are perfectly level where the ground is uneven.

SOLID WOOD LEGS AND FRAME

• Better channeling of vibrations = unrivalled sound quality

UNIQUE COMFORT OF USE

- Retractable permanent posts (can also stay in position) = you save 30cm in width when folded.
- Angled frame (on players' sides)
 = more comfort especially during short play.

INDOOR CHIPBOARI

OUTDOOR LAMINATE - HPL The Indoor tables are equipped with a painted chipboard tabletop. The main benefit of this playing surface is the great value for money compared with the rebound quality. That said, this tabletop definitely is not for use outdoors as the material is not designed to cope with bad weather. Rain and, by extension, moisture are its worst enemies (risk of distortion and blistering). The sun's rays are no exception, as they too very quickly damage the surface layer (risk of discolouration). The other major disadvantage of this so-called indoor tabletop is its fragility in the event of repeated impacting and/or friction (impact from a beginner's racket for example).

You've got it, we strongly recommend that you opt for Outdoor tables, even when they are exclusively for indoor use (garage, cellar, etc.). Just as high performance for play, Cornilleau's Outdoor tabletops have the advantage that they're weather and shock resistant so they're ultra-durable. That's why we guarantee our Outdoor tables for 10 years (ref. page 5) compared with 3 years for the Indoor versions. So don't wait a second longer, whatever your style of Ping, opt for our Outdoor tables. You won't regret it!

cornilleau CATALOG 2020

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard and guarantees the tables against manufacturing defects for 3 years.

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

SKILTOP coating, specific to our competition tables, was developed with the best possible attention to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

"P-BALL READY" SKILTOP

- Spin-sensitive finish specifically designed for plastic balls.
- Non-reflecting, matt, water-based and environment-friendly paint.
- Grey color (available only with 850 Wood ITTF and 740 ITTF): for a better contrast with the ball.

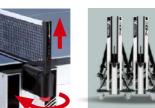

WHEELCHAIR **PLAY**

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

ROBUST

our competition tables are particularly robust (example: sides and feet entirely made of

MINIMUM **STORAGE SPACE**

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each added table.

PERFORMANCE **OUTDOOR** RACKETS

NEXEO GRAPHITE

THE NEXEO GRAPHITE X200

A perfect combination of our expertise in outdoor ping and 'graphite' technologies that have thus far been reserved for the tennis world, is probably the highest performance outdoor racket on the market. It has taken 3 years for this product to come to fruition and the results offer supreme qualities that one might assume would be incompatible: outdoor (weather resistant), incredibly high performance, ultra-durable (shock resistant) and extra light. Don't hesitate for even a second; you too can BOOST YOUR GAME!

NEXEO

Based on their solid experience of outdoor equipment, Cornilleau's engineers have developed a patented 'four-material durable' version. This outdoor racket stands alone in terms of performance.

CARBON FIBER®

Carbon fiber inside the blade of the Nexeo X90 increases rigidity for even greater speed.

TECHNOLOGY TO IMPROVE YOUR GAME

The special formulation and cell structure enable the NEXTENS sponge to interact more efficiently with the pimples below the surface that is in contact with the ball. The GT (GREAT TENSION) evolution in our NEXTENS sponge provides additional strength, as well as transmitting greater rotation onto the ball.

The IN-TENS sponge is an adaptation of our IN-TENS² sponge. It provides incredible control combined with powerful acceleration. It's as if it absorbs the energy in the passive game and releases it into the active game. Unique sensations guaranteed! The IN-TENS² sponge is at the pinnacle of the market's references in terms of the transmission of energy. It fully satisfies the expectations of even the most demanding players by providing enhanced contact with the ball, precision and comfort. It also emitted with each stroke.

The GRIP EXTEND and GRIP EXTEND PLUS top-sheets enable you to transmit even greater spin in every phase of the game through their increased elasticity and impressive

The SPIN-DRIVE 3D technology is the optimisation of 3 performance settings in the top-sheet's pimples: shape, size and density. Each TARGET covering features its own unique combination so as to reach a very specific target: grip + power for TARGET PRO GT, grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The optimisation of the density and geometry of the pimples is one of the keys to performance with the coverings.

- The FAST combination guarantees rapidity and power.

- The SOUND combination guarantees sensation and

- The SPEED combination guarantees speed and precision. The PULSE combination guarantees explosive acceleration

TARGET PRO GT IS A RANGE OF RUBBERS 'MADE IN GERMANY' AND THE RESULT OF A RESEARCH AND DEVELOPMENT PROGRAMME INVOLVING CORNILLEAU EXPERTS, MICHELIN ENGINEERS AND THE WORLD'S LARGEST MANUFACTURER OF RUBBERS. THE TOP PRIORITY FOR THIS PROJECT: REACHING THE HIGHEST LEVEL OF PERFORMANCE AND SAFETY IN TOPSPIN AND COUNTER-TOPSPIN STROKES.

HINOTEC OFF+ CARBON Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance,and its stroke will convince the most demanding player!

HINOTEC

to any game style.

Hinotec OFF - blade suits

Surprisingly dynamic for a blade of

this category, it can also satisfy more

experienced players, as long as they choose fast coverings, as well as

the most polyvalent players seeking

responsiveness in his attacks.

OFF-

HINOTEC

3 words to describe Hinotec OFF : power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosing covering. The blade used by Can Akkuzu.

HINOTEC

ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don 't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

The TALISMAN OFF wood (formerly known as QUEST OFF) boasts both personality and muscle. Designed for a polished offensive game combining fast play close to the table and variations in middistance rotations, this wood also has a very docile side in the different phases of closely controlled play. The harder Ovankole outer plies provide much needed additional pressure during put-away shots.

TALISMAN ALL+

The TALISMAN ALL+ wood (formerly QUEST ALL+) is the type of model favoured by players seeking control, where the focus is on incorporating variations in rhythm and rotations to obtain balls, which make for easy points. Used in association with the ALL/OFF coverings, this wood is the perfect ally for players trying to hone their game. Teamed up with OFF+ coverings, it will provide you with both precision and control in the counterinitiative phases, whilst never sacrificing your put-away shots.

AERO **LIGHTNESS** & PERFORMANCE

ULTRA LIGHT BLADES (70-75 G) **EXTREME SENSATIONS**

MAKING YOUR LIFE EASIER

AFTER SALES SERVICE & SPARE PARTS

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from www.cornilleau-services.com for tables manufactured within a minimum of the last 10 years. Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and offer advice via a simple phone call to:

+33 (0)3 44 80 22 22 from Monday to Friday from 08:00 am to 12:00 noon and 13:30 to 17:30 pm (French time).

SAFETY

All our tables comply with the European safety standards EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

GUARANTEE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts).

DIMENSIONS

- Cardboard packaging: height 141cm, length 157cm, width 10 to 20cm.
- Closed table: height 155cm, length 167cm (leisure and institutional range) and 183cm on all other models, width 75cm
- Playing dimensions: height 76cm, length 274cm, width 152.5cm.

FIND OUR ASSEMBLY VIDEOS ON

www.youtube.com/videoscornilleau

ASSEMBLY

Cornilleau tables are easy to assemble using clear and detailed diagrams. Many parts are pre-assembled in our factory. User guides and labels on each playing surface describe the main safety guidelines and instructions for use. Average assembly time: 1 hour and 30 minutes.

PLAYING STRATEGIES

DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks

generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ (inverted) rubber, with a sponge hardness or = 42.5°. Thickness of the sponge (for (inverted) rubber): from 16 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

ALL-

DEEINI.

A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or "antispin" on backhand,

combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF (inverted) rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for (inverted) rubber): from 1.6 to 1.8mm. ALL to ALL+blade.

ALI

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness < or = 40°. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness < or = 40°. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade

OF

DEFINIT

Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness < or = 42.5° on both sides.

Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness > 40° on forehand and < or = 42.5° on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade

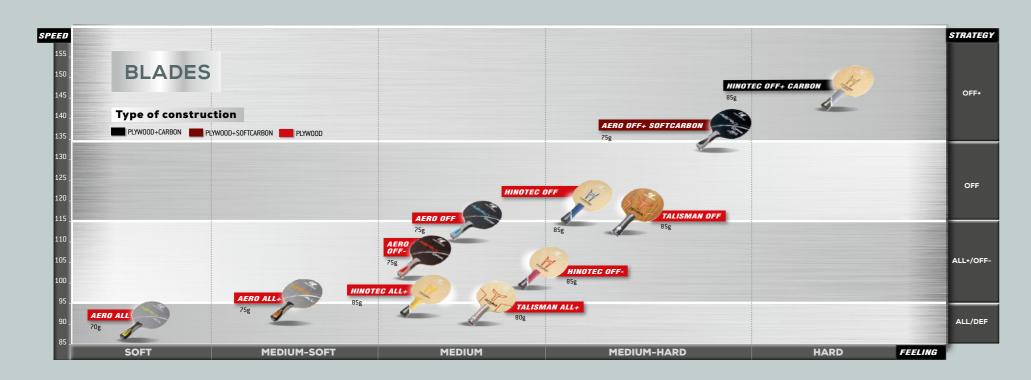

OF

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

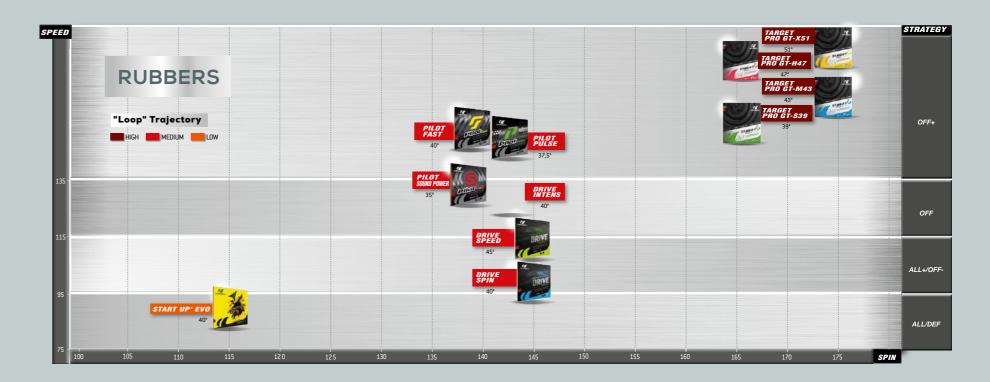

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

ADVICES: OFF+ rubbers with a sponge hardness > 40° on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
