

JENSEN LEISURE

FURNITURE

WELCOME

WOOD FOR A WORLD OF DIFFERENCE

FOR OVER TWENTY FIVE YEARS, the Jensen name has been synonymous with thoughtful design, solid craftsmanship and a high standard of customer service. With an impressive range of traditional and modern designs, and styles that have stood the test of time, Jensen offers something for every home.

The timbers used in Jensen Leisure Furniture, Ipe and Roble are the finest outdoor timbers available in the market today. Heirloom quality begins with timber which is FSC® 100% certified from our own well-managed forests in Eastern Bolivia. Only the most stable heartwood portions of each log are selected from trees that have grown for over a century before they are harvested. Jensen timber is then slowly cured in kilns for up to 65 days to assure dimensional stability and a lifetime of outdoor service.

By using only FSC® certified wood, Jensen Leisure Furniture is working to maintain the long-term well-being of the forests and the people who depend on them. The Ipé used in Jensen Leisure Furniture is certified to meet criteria of the Forest Stewardship Council (FSC®), a non-profit organization that sets international standards for responsible forestry. By sourcing materials in this manner, Jensen Leisure Furniture is helping to conserve tropical forests and enhance the standard of living in its surrounding communities.

ENVIRONMENT

The Forest Stewardship Council® is an independent, non-profit organization established in 1993 to promote the responsible management of the world's forests. Since its inception, over 460 million acres of forest have been certified worldwide (an area larger than the state of Alaska).

Products carrying the FSC® label are independently certified to assure consumers that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

FSC® certification gives forestry enterprises access to new markets for their wood products, and a means for providing steady employment to their workers. But even more importantly, community members become the forest's staunchest defenders when sustainable management provides an alternative to people who depend on the land.

The mark of responsible forestry

Jensen Leisure Furniture products are crafted from FSC® 100% certified timbers.

JENSEN LEISURE FURNITURE IS HELPING TO CONSERVE DRY TROPICAL FORESTS

DESIGNERS

DICK BJÖRK

Dick Björk grew up making furniture at his father's side in the family furniture shop in Helsingborg, Sweden. Dick completed his formal education in traditional woodworking and wood technology at the esteemed Tratekniska Skolan in Helsingborg Sweden. Later, as Dick's furniture design interests evolved, he began to frequent Scandinavia's leading furniture expositions to study Nordic design trends. Since 1990, his professional designs include several projects for contract and residential applications for the celebrated Swedish furniture manufacturer, Berga Form, as well as numerous projects for Finnish clients. Dick joined the JLF design team in 2009 to create the Opal Collection.

EDI & PAOLO CIANI

The Topaz Collection was created by acclaimed Italian designers, Edi and Paolo Ciani. The Ciani brothers are multiple recipients of the coveted Young & Design prize for their work presented at the prominent Milan Salone Internazionale del Mobile. They develop their award-winning designs for the international residential and contract furniture market from their workshop studio in San Giovanni de Natisone, Italy. Apart from the Topaz Collection, the Ciani brothers designed the Pearl Folding Chair with Gateleg Table set, and the Atlantic Steamer for Jensen Leisure Furniture.

POVL ESKILDSEN

Povl Eskildsen gained interest and experience from the family's furniture factory in the 60s and 70s. Following a Masters Degree in furniture design from the Denmark School of Architecture in 1986, Povl has worked successfully as a freelance furniture designer all over the world. Many of his designs are considered icons in the furniture industry and are still selling after 30 years; Weston, Briksen Riviera, and Kingston to name a few. We are proud to present Povl's English, Coral and the new Santa Cruz Collections.

PHILIP BEHRENS

After completing his Mechanical Degree in the U.S. Philip began an apprenticeship in Germany, focusing on chair design and construction. Following this he tried production and development from the manufacturing side. Philip then spent 10 years designing office furniture. In 1995 he formed his own studio, Natura Design Inc., and now concentrates on indoor and outdoor seating design. For Jensen Leisure furniture enjoy Philip's New Kent Rocker and the new Eflex chair.

ALAN MORLEY

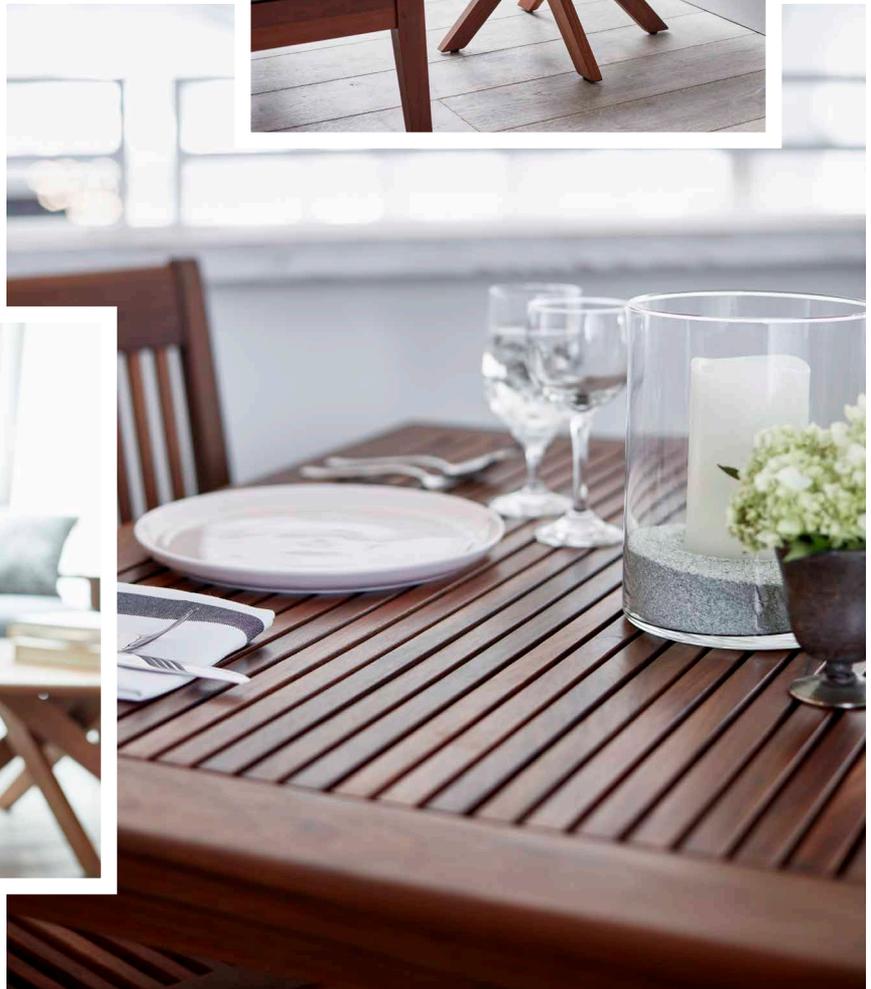

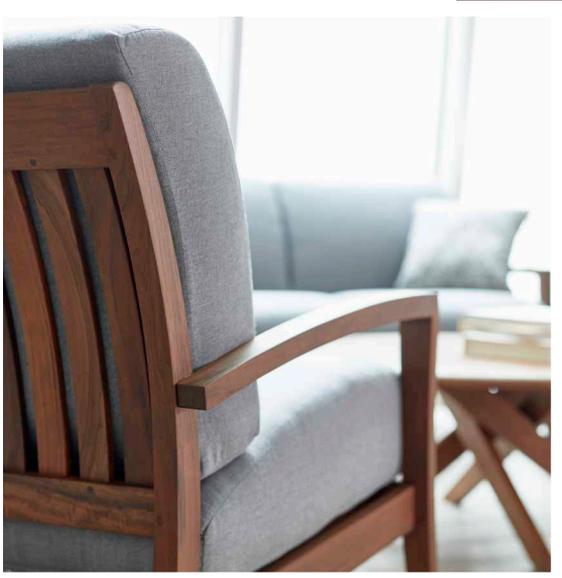

Alan Morley started his career as a furniture draughtsman and cabinet maker in Brighton, England, before developing his own contemporary furniture design and manufacturing business in 1983. He then moved into interior design and created stunning installations within the private sector. In 2003, Alan joined Jensen LEISURE'S SISTER COMPANY, Alexander Rose Ltd. as their in-house designer and has developed many collections of innovative furniture that maintain the company's position at the forefront of their industry. His latest design, the Cordial Lounge represents an inspired mix of materials that harmonise to give a beautiful look and feel.

IPÉ

COLLECTION

A strikingly beautiful timber, Jensen Ipé weathers with strength and elegance. Ipé is incredibly strong and dense, with very high wear durability. A handsome chocolate brown when new, the sun gracefully transforms Ipé to a mature, elegant silver patina.

Cleaner, stripper, brightener.

WOOD SHIELD
6009

Makes wood repellent to water and moisture. Helps to prevent stains caused by food and drinks. 16 oz.

IPÉ COLLECTION

PRODUCT CARE & MAINTENANCE

Some of the world's strongest and most durable woods come from the Chiquitania Dry Forest of Eastern Bolivia. Because of the nature of tropical dry forests, trees grow very slowly here. Ipé is one of the most abundant timber species in these forests. It is incredibly strong and dense, with very high wear durability.

A rich chocolate-brown color when new, the sun gracefully transforms Ipé to a mature, elegant silver patina. The original color remains preserved, however, just beneath the "skin" of the weathered surface. You can choose to allow your furniture to weather naturally or preserve the original color through simple maintenance.

To preserve the original color, we recommend and supply Penofin Verde, a special oil finish. It contains a light transparent pigment that screens the UV light and enhances the tone and hue of Ipé without hiding the grain. It is simple to apply using a lint-free cloth, sponge, or even spray bottle. In average climates, it is sufficient to recoat fully exposed furniture once a year. More frequent re-coating may be needed in regions with high sunshine. Our website features detailed instructions on how to care for your Ipé furniture.

For additional protection from water and moisture, we recommend and supply Wood Shield. Applied to Ipé or Roble tabletops, Wood Shield will provide protection from household food stains—wine, olive oil, grease stains, water spotting, etc.

Wood is a living material, sensitive to the constant changes of the outdoor environment. Although Ipé is naturally stable, minute checks in the wood surface may appear if the furniture is placed in very dry or sunny environments for prolonged periods. Superficial checking in no way effects the structural integrity or longevity of your furniture.

ROBLE COLLECTION

Roble is a native hardwood from Eastern Bolivia. It has been known for decades in Europe as a premium garden furniture wood and is highly valued for its outdoor stability and durability. The large size of Roble trees allows for wide board and clear cuttings of 100% heartwood, the most durable part of the tree. All Jensen Leisure Furniture Roble is FSC® 100%.

WOOD SHIELD
6009

Makes wood repellent to water and moisture. Helps to prevent stains caused by food and drinks.
16 oz.

WOOD CLEANER
6008

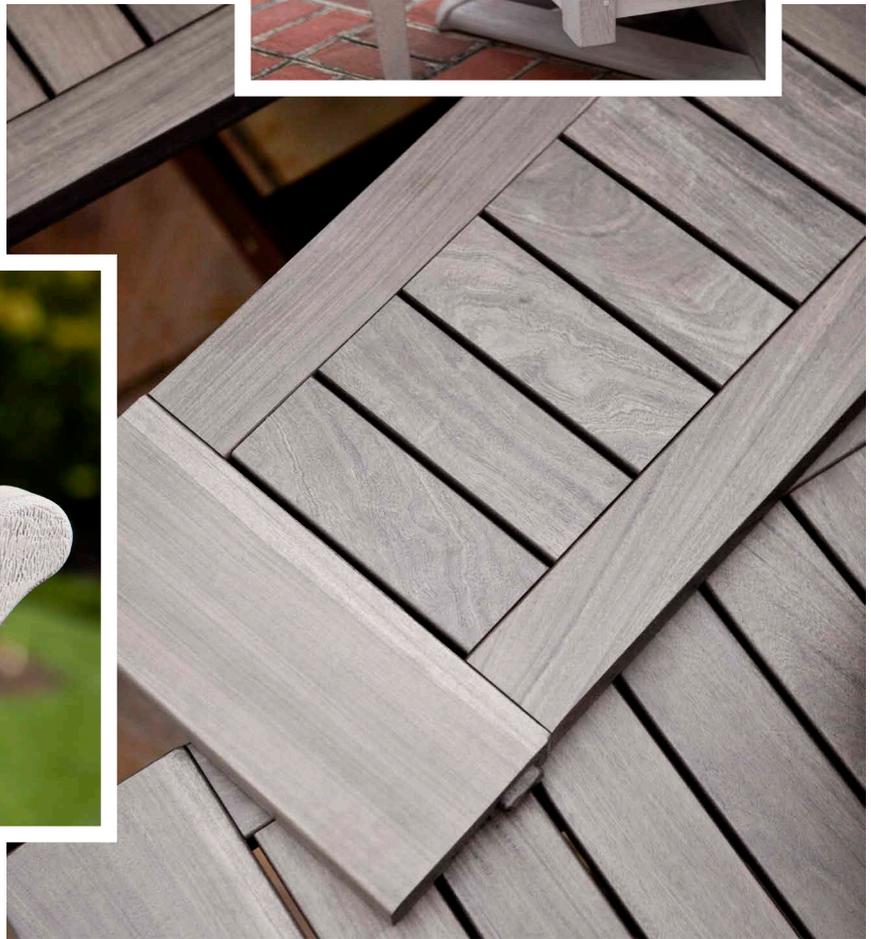

For the restoration of weathered wood.
Water-based.
1.77 lbs.

ARGENTO COLLECTION

Crafted of 100% FSC® Certified Roble heartwood the Argento (silver in Italian) finish is low-maintenance, requiring no special care other than recommended Wood Shield as it ages outdoors to a medium gray.

The timber surface is distressed, with areas sanded smooth, to provide a weathered driftwood appearance.

ARGENTO AFTERCARE 3000

Makes wood repellent to water and moisture. Helps to prevent stains caused by food and drinks.
16 oz.

ARGENTO AFTERCARE

The Argento finish was designed to be "low maintenance", meaning that the finish is designed to continue to gray-out as it weathers, closely approximating the original gray appearance needing no maintenance whatsoever. If however, the wood surface becomes dirty or stained with outdoor use, you can use Argento Aftercare to return the finish to a clean gray condition.

CORAL COLLECTION

All weather quality Virofiber is artistically handcrafted using a twisted, traditional basket weave onto a powder coated, commercial grade aluminum frame. This natural textured weave combines handsomely with the smooth, brown richness of Ipé timber arms and base.
